

POLICE AND COUNTY ELECTIONS, 6th MAY

On Thursday 6th May you can vote for a **county councillor for Buxton West** and for a **Police and Crime Commissioner for Derbyshire**. The Liberal Democrat candidate is:

Stan Heptinstall

Stan has long experience of serving as a county and borough councillor and worked hard and effectively for the people he represented. He now wants to do this for the people of Buxton where, since retirement, he now lives and, with his wife, runs a small business.

As a councillor he set up a Community Action Teams which provided a vehicle for local people to work closely with the police, and these were effective in reducing crime. He is keen to do the same in Buxton and, as Police and Crime Commissioner, more widely in Derbyshire. His focus will be on finding out what are your concerns and working hard to make life better for us all.

Stan spent his working life in the Medical School at the University of Nottingham. On retirement he was made an Emeritus Professor of the University. He is a family man with children and grandchildren.

POLICIES FOR THE COUNTY COUNCIL

Derbyshire County Councillors are responsibilities for the big things - care, schooling, roads, waste disposal and recycling, greening issues including mitigating the effects of climate change, ensuring the well-being of the people they serve. A major issue is the aftermath of the pandemic – unemployment, struggling businesses, poor mental health. Stan promises to work with other county councillors and other agencies to help all those in need.

POLICIES FOR POLICING

As an elected councillor Stan has already worked with the police in setting agendas to reduce crime and is anxious to do this in Buxton. With your help, he has already learned that:.

- Many police stations are not fit for purpose and need to be made more accessible to members of the public. Stan has already arranged to inspect the police facilities in Buxton. During the visit he will also be asking why violent crime and antisocial behaviour is so dominant in Buxton and why there are so few arrests.
- The visibility of the police in both urban and rural areas needs to be increased and Stan says this can be achieved with more police and more support workers.
- Victims of crime, and particularly female victims, are not being supported as well as is needed, and Stan says that fixing this will be a major priority.

Contact Stan to let him know what are your concerns and aspirations for our area
